MP-2 BURN-IN PROCEDURES

- 1) Stack the units on top of each other w/ end caps, so that they have space between them.
- 2) Turn each unit ON & OFF 5 times, make sure fuse hasn't blown.
- 3) Burn in overnight.
- 4) After burn in, make sure the LCD has not darkened, and that the fuse hasn't blown.
- 5) Perform sound-check while the unit is still HOT.
